## **CLINICAL PRACTICE**

I resigned from my NHS practice at the Royal Free Hospital in April 2016 after 30 years of service within the NHS. I now work in full-time private practice specialising in diabetes and endocrinology within North, West and Central London with weekly clinics at The Physicians' Clinic (part of Harley Street Clinic), Hospital of St John and St Elizabeth, BUPA Cromwell Hospital, Wellington Diagnostics Out-Patient Centre, Chelsea Out-Patients Centre and the Wellington Hospital. I support in-patient services in my speciality and participate within Multidisciplinary Teams at The Physicians' Clinic, BUPA Cromwell Hospital and Wellington Hospital. I liaise with London Neurosurgery Partnership, London Oncology Clinic and fertility services at the Lister Hospital and CRGH. I have a busy medicolegal practice writing up to 50 expert reports per year. I was President of the British Thyroid Association 2014-2017.

I have an Honorary Consultant contract at UCH for Joint Adolescent Thyroid Clinic every 4 months for management of children with thyroid disease.

In my 20-year career as an NHS consultant I had the following commitments:

General endocrine clinic including responsibility for thyroid service, pituitary disorders and reproductive endocrinology.

General diabetes clinic including patients with type 1 and complex type 2 diabetes.

Consultant-led clinic in the community to in conjunction with a community multidisciplinary diabetes team in Camden. Between 2001-2012 I had responsibility for primary care liaison in diabetes in Camden and regular GP/Practice Nurse teaching programme now exists with guidelines for the management of diabetes and an email support system.

From 1997-2007 I was a member of the Combined Pituitary Clinic with Consultant Neurosurgeon Mr Michael Powell at the National Hospital, Queen Square.

Clinical Director for Medical Specialties including Out-Patient Services 2005-2006.

Chair of the Trust's European Working Time Directive Service, Training and Care Committee from 2004-2007 which implemented the development of a generic night-team within Medicine and Surgery led by a Nurse Coordinator.

Trust Drugs and Therapeutic Committee 2007-2011 and Deputy Chairman 2009-2011.

Member of Local Awards Committee for Clinical Excellence Awards 2009.

North West London representative on the NHS England Commissioning Clinical Reference Group for Specialised Endocrinology 2013-2016.

Society for Endocrinology representative on RCP Joint Speciality Committee for Endocrinology and Diabetes Mellitus from 2012-2016.

## **CLINICAL GUIDELINES**

I have participated in the development of following clinical guidelines:

19. A study on the management of differentiated thyroid cancer at a large UK Teaching Hospital. CL Chang, G Stewart, M Vanderpump, B Khoo, P-M Bouloux, D Afful & S Janmohamed. The Endocrine Society June 2014. P0570.

## **TEACHING**

My post had a teaching commitment for undergraduate students (Year 3) from the Royal Free Hospital and UCH Medical School. I have performed regular interactive tutorial teaching to Medical Students and Junior Doctors.

National and international lectures on thyroid disease.

Regular seminars and lectures on Diabetes and its complications and Endocrine Disorders to Hospital Practitioners, General Practitioners and Practice Nurses.

Principal organiser of a Training Program for Endocrine Specialist Registrars in Northeast Thames rotation and served on the Specialist Training Committee for Endocrinology in North Thames from 1999-2004.

Responsibility for organising the thyroid module of the curriculum for Specialist Registrars in Endocrinology in Clinical Endocrinology Update (2007-2009).

Royal College of Physicians Tutor for the Royal Free Hospital from 2000-2003 and organiser of SHO training programme for the MRCP at the Royal Free Hospital which was highly commended by the RCP. As Unit Training Director in Medicine, the training opportunities provided by the generic night-team in terms of leadership, team-building skills and managing the acutely sick were emphasized.

I served as an Internal Examiner for the finals in Pharmacology at UCH from 1999-2003 and served as an External Examiner for the B Med Sci Exam Board for Queen Mary College, University of London 2003-2005. I was an Internal Examiner for the MD and PhD thesis for the University of London and was an External Examiner for MD thesis for University of Dublin.

Founder and co-organiser of the Annual Pituitary Clinicopathological Conference (21<sup>st</sup> conference February 2018).

## **RESEARCH**

My MD thesis was an epidemiological twenty-year follow-up study of the Wickham survey which involved determining the outcome in terms of thyroid disorders, diabetes and cardiovascular disease in 2779 subjects. This has provided unique incidence data and risk factors for these disorders. My MD thesis submitted to the University of Birmingham in 1995 was titled "The Incidence of Thyroid Disorders and Diabetes Mellitus in the Community and the Relationship of Thyroid Failure with the Development of Ischaemic Heart Disease". Subsequently my main research interests have been epidemiology, clinical thyroid disease, audit and the cost-effectiveness of managing thyroid disease.
